## THE POWERS AWAKE

### To Russia's Move

In Increasing Garrison in Province of Manchuria.

### Traditions Are Cast Away

Radical Steps Will Be Taken by This Country, England and Japan in Unison-- Hay in Communication With the President.

Washington, May 8.—The state department has received official communication from its agents in China of increase of the Russian garrison in New Chwang, Manchuria and there is reason to believe if President Roosevelt approves that it is preparing to take vigorous steps in the matter. Secretary Hay is in communication with President Roosevelt, California and upon the latter's death the secretary will depend. It is stated that the department had patience taxed by the course of events in Manchuria and that it now contemplates a more radical step than which has heretofore marked the relations between the powers on this point. The proposed step contemplated joint action by Japan, England and the United States. Previous negotiations have been hampered by the inability of the United States to act jointly with other nations without violating its traditions. It is now hinted that some plan of cooperation with England and Japan may be devised which will have effect of convincing the Russian government of the united determination of the three nations to insist upon Russia's evacuation of Manchuria and not actually committing the United States to formal alliance. The programme is subject to the approval of the president. If it is not acted upon by him the department may fall back upon former method of individual representation to Russia and ask another iteration of the happenings in Manchuria. In such event the Russian war is already forecasted by the men here. Under the Russian representation to the powers, the troops have been withdrawn from New Chwang, just one month ago today, understood, a matter of fact, that a portion of the Russian force was withdrawn from the barracks in the tents outside. It is presumed in Pekin advices that these troops

have returned to the city. However, it is pointed out that Russia employed a saving clause in the promise to withdraw from Manchuria, the language being "provided, however, that the action of other powers shall not stand in the way." Russia it is understood, now claims that this provision was violated by Japan, when she mobilized her fleet, and otherwise showed signs of military preparations which were construed as a menace to Russia.

Accompanying the news of the reoccupation of New Chwang, comes news from agents in China, that the Russian attitude is injuring the chances of the treaty, which Mr. Conger and Consul General Goodnow have been negotiating with China, involving the opening to American trade of the ports of Taku-Shan and Mukden in Manchuria. The latest advices are that the treaty is already practically lost owing to Russian opposition. The fact is construed to give the United States government a direct interest in what is happening in Manchuria.

Baron von Sternberg, the German minister, and Sir Michael Herbert, the British ambassador, both called at the state department today. It was believed that their visits were, to some degree, connected with the Manchurian situation.

#### CHINESE OFFICIAL

Says He Has Not Received Official News of Russia's Movs.

London, May 8.—The Chinese ambassador here, in an interview is quoted as saying he has not received official confirmation of the Russian action at New Chwang. If true, he added, it means that Russia will eventually occupy the whole province and though China is not prepared for war, she will probably resent any attempt to do this.

## COME QUICK! MURDER! HELP!

Were Words the Parrot Cried, and by  
Which It Saved Master's Life.

Washington May 8.—Attracted by cries of "murder," help, "come quick," neighbors of George B. Andrews of this place, ran to his house to learn the cause. They knew the cries were made by his parrot, but they had never heard it much damage was done.

Andrews is a veteran of the civil war and some time ago he applied for a pension from a great many soldiers home, on his own account. He had been repairing the house when informed he would be accepted, cooling and tell from a stepladder he wrote the authorities asking if he falling against a stove. The physician would be allowed to bring his parrot to see him and said that in only a few days he would be well again.

Andrews lay unconscious on the floor a great deal in the soldiers home, on his own account. He had been repairing the house when informed he would be accepted, cooling and tell from a stepladder he wrote the authorities asking if he falling against a stove. The physician would be allowed to bring his parrot to see him and said that in only a few days he would be well again.

## ROCKEFELLER ABLY DEFENDED

By Chancellor Andrews of University of Nebraska. The Standard Magnate Proposes Making Large Gift to the Institution.

Lincoln, Neb., May 8.—In an address before the students of the University of Nebraska yesterday Chancellor Andrews referred to a proposed gift of John D. Rockefeller, and defended the latter.

"The standard oil trust has not offered any money to anybody," the chancellor said. The gift he declared was offered by John D. Rockefeller who had drawn but a small part of his wealth from the Standard Oil Company, the remainder being drawn from railroads, mines and other enterprises that are important to the country. Rockefeller came up from the ranks he continued, and I have occasion to know that many of those who have inherited their wealth are using every means of extirpation against Rockefeller, including even the newspapers.

**CUTICURA PILLS**

**For Cooling and Cleansing the Blood and Skin**

**In Cases of Itching, Burning, Scaly Humours,**

**And for Revitalizing and Enriching the Blood.**

**The Best and Most Economical Yet Compounded.**

Cuticura Resolvent Pills (chocolate coated) are the product of twenty-five years' practical laboratory experience in the preparation of remedies for the treatment of humours of the skin, scalp and blood, with loss of hair, and are confidently believed to be superior to all other alternatives as well as liquid blood purifiers, however expensive, while enabling all to enjoy the curative properties of precious medicinal agents without consuming needless expenses and often injurious portions of alcohol in which such medicines have heretofore been preserved.

Cuticura Pills are alterative, antiseptic, tonic and digestive, and beyond question the purest, sweetest, most successful and economical blood and skin purifiers, humour cures and tonic-laxatives yet compounded. Medium adult dose, one pill.

Complete external and internal treatment for every humour may now be had for one dollar, consisting of Cuticura Soap, to clear the skin, Cuticura Ointment, to heal the skin, and Cuticura Resolvent Pills, to cool and cleanse the blood. A single set coating but one dollar, is often sufficient to cure the most torturing, disfiguring skin, scalp and blood humours, eczemas, rashes, itchings and irritations, with loss of hair, from infancy to age, when physicians and all other remedies fail.

**BIG GRAB**

Made by Sneak Thief on Morris Park Track.

Eight One Hundred Dollar Bills Stolen—All Recovered Except Two of Them.

New York May 8.—With a handful of \$100 bills, a sneak thief, who slipped his hand into the cash bag of a bookmaker at the Morris Park race track and seized the largest and most tempting notes contained therein was chased across the crowded betting ring by his victim.

In the chase the thief cast aside the money which was picked up by spectators and later claimed for their owner by another hoochie who witnessed the occurrence. A man said to be the thief was taken in custody by detectives and locked up with a complaint of grand larceny against him. The prisoner denied the theft. Of the money stolen \$600, all in one-hundred dollar bills, was recovered but \$200 was lost.

Is the Revolutionary Spirit in Turbulent Nicaragua.

San Salvador, Salvador, May 8.—Adolfo Altamirano, the Nicaraguan minister to Salvador, claims that the Nicaraguan revolution is nearly suppressed. He adds that the government steamer Once de Julio, recently engaged the revolutionary steamer Victoria, on Lake Nicaragua, causing the latter serious damage, but the Victoria, being the faster vessel, escaped. The Nicaraguan revolutionary steamer Novant-Tres, is ashore in Mojonalpa bay, lake Nicaragua.

**TRAVELING IS DANGEROUS.**  
Constant motion jars the kidneys which are kept in place in the body by delicate attachments. This is the reason that travelers, railmen, street car men, teamsters and all who drive very much suffer from kidney disease in some form. Foley's Kidney Cure strengthens the kidneys and cures all forms of kidney and bladder disease. George H Hanson, locomotive engineer, Lima, O., writes, "Constant vibration of the engine caused me a great deal of trouble with my kidneys, and I got no relief until I used Foley's Kidney Cure." Sold by H F Vortkamp, corner Main and North streets.

## STEP

In Line of Metropol- itan Progress

Is Exemplified

By Establishment of a New Institution.

Lima Trust Co. Opens Its Doors For Business of Wide Range, Monday.

Equipment of the Establishment and Business Methods of the Corporation Equal to Those of Any Other City.

One of the best conceivable evi- dences of the genuine metropolitan progress the city of Lima is enjoying at the hands of its enterprising business men and capitalists is afforded by the establishment of the splendid new institution which has been incorporated under the laws of Ohio as The Lima Trust Company. The doors and books of the corporation, formed with a capital stock of \$200,000, will be opened in the northeast corner room of the new Masonic building on next Monday May 11. The institution is one that in every feature of its equipment and business methods cannot be surpassed by those of similar banking institutions in any of the largest cities in the country. Its possibilities as an important factor in the financial world are unlimited and the outlook for its attainments are very encouraging.

That portion of the Masonic build- ing to be occupied by the Trust Co. has been neatly re-arranged and is fitted with the most approved style and kind of furniture the country affords. The furniture fixtures of the main business room are constructed of highly polished golden oak trim- med with oxidized metal and marble and the three windows, with the distinctions between them marked by neat signs which read "Paying", "Receiving" and "Bookkeeper" are cleverly arranged and sufficiently separated for the greatest convenience of both patrons and clerks of the es- tablishment.

In the front of the main business room is one of the popular Corliss safes in the rear adjoining the directors' room which is separated from the front by a portion of the golden oak fixtures, is a large book vault, and in the basement, which is reached by means of an inner iron stairway, is a spacious safety vault, constructed of pressed brick, lined with Bessemer steel and equipped with a 5,000 pound steel door of the latest approved model. Every fixture in the entire establishment and every feature of the arrangement is thoroughly modern and provided with the view of pro- viding for the comfort and convenience of patrons.

The business of the establishment is divided into three distinct branches—the commercial deposits department, savings department and the trust department—each fully equipped and properly officered to be conducted along the lines of the most modern and approved methods. As has been previously stated, the company does not contemplate engaging in the com- mercial banking business but the range of the branches of the trust, savings and commercial deposit fea- tures of its operations are indeed wide and the possibilities far reaching.

# TING-A-LING EMPLOYEES

Of the Cincinnati Bell Telephone Company Out on a Strike.

Cincinnati, O., May 8.—All the line-men, foremen, inspectors and conductors of the local Bell telephone company, struck today for an increase in wages. The manager of the company, Bayard Kilgour, declined to treat with a committee of the union to which the men belonged, but said he would treat

with the men individually as employees and would pay wages corresponding to the scale in other cities and towns. This answer was unsatisfactory. The manager says no embarrassment has followed the strike, and that the places of the strikers are being filled with other men.

## OIL STEAMER BELIEVED LOST.

The S. V. Luckenbach, With Crew of Thirty-two Men and Heavy Cargo Is Over Due Since April 18.

New York, May 8.—Edgar F. Luckenbach, one of the owners of the oil tank steamer S. V. Luckenbach, which is missing, said today that he had given up hope of the steamer ever being heard from.

The S. V. Luckenbach left Sabine Pass, Texas, March 22, for Philadelphia, with a cargo of 1,100,000 gal-

lons of oil. Her captain was George Thompson, of Brooklyn, and there was a crew of 32 men. She was due at Philadelphia about April 15. Mr. Luckenbach said he believed she had struck a derelict, or had been cut down by some unknown vessel. There is a possibility, however, that she became disabled, and drifted southward out of the course of passing vessels.

## FAR AWAY AUSTRALIA

Railroads Probably Be Tied Up Unless Employes Recede From Position.

Melbourne, Victoria, May 8.—All of the state-owned railroads of Victoria may be tied up tonight, because of a curious dispute between the government and the railroad employes, regarding the right of the latter to affiliate themselves with the Victoria trades hall, the headquarters of trade unionism in this colony. The employes of the railway are practically civil servants, and the government claims that in case of a strike in other trades affiliated with the trades hall, that they will lose their pensions if the railroad men would be obliged to strike in sympathy, and therefore, the men are involved in the dispute.

### DECLARED OFF

Unconditionally Is Journey-men Tailors Buffalo Strike.

BUFFALO, N. Y., May 8.—The strike of journeymen tailors for an increase of wages, which has been in progress in this city for nine months, was declared off today, unconditionally.

The little fellow, surely not more than five years old, and as he called for his afternoon papers at the corner of Twelfth and Market streets, many people gazed at him with mingled amusement and pity. He had long brown curls, wet with the drenching rain, and his shrill little voice had a baby lisp. A very stout, elderly woman, apparently weighing close to 200 pounds, paused at the south side of Market street and looked astirke at the miniature river of water and at the passing procession of wagons and tulley cars.

The little newsboy was quick to size up the situation. Running up to her, he exclaimed: "Don't be afraid, lady. I'll help you across." Reaching up his little hand, he clutched her by the arm, and together the ridiculous pair threaded their way to the opposite curb. Then the stout woman opened her purse, gravely handed the little fellow a coin and disappeared into the Reading terminal—Philadelphia Record.

**COURTS OF ABBYSSINIA.**  
In Abyssinia political offenders and obstructionists are arrested, chained and placed on the small tableland of Abba Salama, a high, rocky and precipitous mountain about thirty miles from Adowa. So sheer and steep are its sides that the prisoners are drawn up by ropes. Their chance of escaping is impossible, unless they run the risk of dashing themselves into eternity on the rocks below. On this lonely height there is soil on which they may grow grain, and there are wells with good water. There is no speaker to keep order, and they may, if they choose, abuse the prime ministers and crowned heads to their hearts' content, but they return no more to the ways of the world.

**Roman Candles.**  
In making Roman candles a cylindrical case is taken and packed with a lot of stars. At the bottom of the case they put some of the composition they put in rockets, and on top of each star is some more of it. By mixing certain chemicals green and red lights are produced. Green lights like those used in death scenes on the stage at the theater are made by mixing a great quantity of nitrate of barytes with small quantities of sulphur, chlorate of potash, charcoal pulverized and arsenic.

"We have enormous orders for these boxes," continued the salesman, "from every part of Europe." And then he added apologetically, "It's a matter of business, you know, with us."

Mr. Sankey enjoys a joke, even if it be at his own expense, else this little story would never have seen the light. He told it on himself. He entered a music store in Geneva and asked to see some music boxes. None that was shown him filled the bill.

"Have you none that plays sacred music?" he asked.

"Why," answered the salesman, "we have some that play a kind of half way sacre' music."

"What?"

"Oh, those Moody and Sankey hymns. I can't imagine what the people see in them, but we sell thousands of the boxes that play them. Here's one."

The box he produced began to play "Gates Ajar For Me" and then branched off upon other gospel hymns.

"We have enormous orders for these boxes," continued the salesman, "from

every part of Europe." And then he added apologetically, "It's a matter of business, you know, with us."

Mr. Sankey merely smiled. A moment later a woman came hurrying up to him and, holding out her hand, ex-

claimed:

"Why, Mr. Sankey, is this you?"

She was Miss Maria Havergal, author of a famous English hymn writer.

### AN OLD GARDEN.

The Joy It Gives Even though the Plot Be a Small One.

Perhaps no word of six letters concentrate so much human satisfaction as the word "garden." Not accidentally indeed did the inspired writer make paradise a garden, and still today, when a man has found all the rest of the world vanity, he retires into his garden. When man needs just one word to express in rich and poignant symbol his sense of accumulated beauty and blessedness, his first thought is of a garden. The saint speaks of "the garden of God." "A garden enclosed is my sister, my spouse!" cries the lover, or "There is a garden in her face!" he sings, and the soldier's stern dream is of a "garden of swords." The word "heaven" itself is hardly more universally expressive of human happiness than the word "garden."

And you have only to possess even quite a small garden to know why—a small old garden. So long as it is old it hardly matters how small it is, but old it must be, for a new garden is obviously not a garden at all. And most keenly to relish the joy which an old garden can give you should perhaps have been born in a city and dreamed all your life of some day owning a garden. No form of good fortune can, I am sure, give one a deeper thrill of happy ownership than that with which one thus city bred at last enters into possession of an old country garden—Julius Norwood in *March Harper's*.

### A DISASTROUS DREAM.

This story is told by a man from Harlem: He dreamed one night that there was concealed about the flat in which he lived a quantity of silver.

The next night he dreamed the same dream and told it to his wife.

After a consultation they decided that there must be "something in it" and began to sound the walls for it.

At one place in the dining room they came upon a space which sounded hollow. The wall there was of brick, but the husband got a pick, and the next night, with great stealthiness and care, they managed to make an opening, when they came upon an array of silver spoons and forks, cake baskets, teapots and other valuables.

These they arranged upon the dining room table and were gleaming over when there came a furious ring at the doorbell, and an irate man who lived in the next flat came in to know "why in thunder they had broken into his dining room cupboard"—New York Press.

### A FRIENDLY TIP.

During his term as congressman Major William A. Smith, ex-president of the North Carolina Central railroad, made a visit to New York and stopped at one of the American plan hotels. Upon seating himself at dinner he was obsequiously handed a bill of fare by the waiter. Tossing it aside, he passed the waiter a dollar, with the remark, "Bring me a good dinner."

The dinner proving satisfactory, the congressman pursued this practice during his entire stay. As the last tip was changing hands he mentioned that he was about to return to Washington. "Well, sir," said the waiter, "when you or any of your friends that eat at the bill of fare come to New York, just ask for Sam"—New York Times.

### A RUNAWAY BICYCLE.

Stuttering and stammering are terms that are confounded. They are not synonymous by any means. Stammering is an inability to properly enunciate certain elementary speech words; stuttering is a vicious utterance manifested by frequent repetitions of initial or other elementary sounds. Both are caused by improperly action muscles of the vocal chords, soft palate, tongue, cheeks, lips, etc.

Some of these muscles are under easy control of the will. Over the muscles of the pharynx, the soft palate and at the base of the tongue, which move its root upward and downward, our power is not so complete, and this causes the affliction.

### COURTESY IN MEXICO.

How a Woman Writer Was Escorted Through the Country.

Hospitality in Mexico is humorously yet gratefully described by Mrs. Tweedie, who related her experiences in "Mexico as I Saw It." For hours the train had been pounding along between huge Texan ranches, a dusty and uninteresting journey since leaving San Antonio. Suddenly a man in uniform appeared before the traveler.

"Are you Mrs. Alec Tweedie?" he asked.

"I am," I answered, with an outward

wondering what offense I had committed.

"I have come to help you at the frontier with your luggage."

I sighed with relief, thanked him and after his departure tried to go on with my work of manuscript reading.

We passed another junction and another man stood before me.

"Are you Mrs. Alec Tweedie?" he asked.

"I am," I replied, trembling again.

"I come," said he, "from the International railway to bid you welcome to Mexico."

I asked him to sit down, and we chatted, although not for long, because in a few minutes, "Are you Mrs. Alec Tweedie?" asked a third man. At that I laughed outright.

"I come from Mr. Cloete's ranch," he explained, "to look after and welcome you in his name."

We began chatting about my recent adventures, when a fourth man presented himself.

"Are you Mrs. Alec Tweedie?" he asked.

Convinced with laughter, I could only nod assent.

"Mrs. Barrett of Sonora asked me to meet you at the frontier and see you safely to Sabinas," was his explanation.

So, duly escorted, I went on.

### ANECDOCTS OF SANKEY

How the Afflicted Singer Became an Evangelist.

### INTEREST MOMENT OF HIS LIFE.

Moody's Famous Partner Says It Was When He First Sang the Words of "Ninety and Nine" Before a Great Scotch Audience—Experience With a Swiss Salesman—His Methods of Singing.

The misfortune that has befallen the eyes of Ira D. Sankey, the famous singing evangelist, reminds me that it was a Pittsburgher who brought him and Moody together in revival partnership, says a correspondent of the Pittsburgh Dispatch. The story has often been told, but it will bear repeating.

The two men, then strangers to each other, were both present at an international convention of the Y. M. C. A. at Indianapolis in 1870. Sankey was a delegate from New Castle, where he was working under his father as deputy collector of internal revenue. His wonderful singing attracted the attention of the great evangelist.

"Who is that man over there that sings so?" Moody asked of the man next to him, who happened to be H. K. Porter, then president of the Pittsburgh Young Men's Christian association.

"Why, that's one of my Pennsylvania young men, Ira Sankey," replied the Smoky City man. "He has a fine voice, hasn't he?"

"I don't know anything about his voice," said Moody, "but I know this—that he feels every word he sings and believes every word he feels. I want to meet that man. Bring him to my hovel."

The meeting took place. The evangelist wasted no words approaching the subject.

"I want you to come with me, young man," said he. "I've been looking for you the last eight years."

Sankey spoke of his business in New Castle.

"You'll have to give that up," said Moody peremptorily.

# WHY NOT A LIMA MAN?

Board of Public Service Appoints a Citizen of Dayton

To the Position of Market Master and Fixes His Salary at One Thousand Per Year--Lima Republicans Turned Down.

The Board of Public Service evidently believes there is not a Foraker republican in Lima, who is capable of taking charge of the new market place, and its attendant salary of \$1,000 per year, so they have conferred the title of market master upon a citizen of Dayton, and as an excuse for this unprecedented action, they claim they will shift the responsibility for the successful operation of the market place to the people of Lima. In other words they will employ a citizen of Dayton who has no political affiliation in Lima, and no partisan faction to be held responsible to, and then the public must make the market place a successful venture or shoulder the blame for its failure. Such is, in substance, the statement made by the official organ of the Foraker-Sanford republicans of the city.

While in session yesterday afternoon, the Board elected Lewis Miller, of Dayton, to the position of market master at a salary of \$1,000 per year. Mr. Miller it is stated, has been previously employed as an inspector of meat and markets in Dayton. His appointment becomes effective May 10.

The extent of the indignation that is rampant in the ranks of the republican citizens of Lima, over certain actions of the Board of Public Service, would be difficult to describe, but judging from the number and frequency of complaints that are heard daily and hourly, the general policy adopted by the board is a very unpopular one. When a republican board was elected, it was generally supposed that there would be some changes made in the organization of affairs, but the friends of Tobe Long, Walter Toy,

clared elected, and his salary was fixed at \$300 per year.

The question of electing sanitary policemen was discussed, but was deferred for one week to give the editor an opportunity to secure and submit another opinion.

Howard Long, a switchman employed in the C. H. & D. yards, was the victim of a painful accident that befel him while he was at work in the north yards, with one of the night switching crews, about 3 o'clock this morning. Long was riding on the footboard of a switch engine and jumped off to throw the lever of a split switch. The weight of the engine on the rails threw the switch ahead of him and a heavy iron ball with which the switch lever is weighted, struck him on the left knee, inflicting a very painful and quite a serious injury.

Mrs. Long being out of the city, the injured man was removed to the city hospital in Bennett's ambulance. Mr. Long is a former employee of the Nickel Plate road, and removed to this city recently from Leipzig.

## SOCIAL PARASITE SOCIAL PRODUCT.

Incredible Views Offered Against Encouraging Indiscriminate Giving to "Weary Willies" by National Conference of Charities.

May 8.—The second session of the National Conference of Charities and Corrections, opened this morning with an address by Bishop Benjamin J. Kell, of the church. The general schedule day was county and municipal charities, outdoor relief and other topics. Mr. Allen, general agent of New York Mission for Improving Condition of the Poor, delivered his address as his subject "Parasite or Social Product." A sufficient portion of his address was as follows:

"Vagrancy infests a number of people and represents a menace to social welfare, the support of the individual and the strength of the association to the vagrancy of the less fortunate. The trumpet philanthropy, that all are pariahs, that vagrant men tell lies which purport to be true, relief from poverty, relief from want, mitigation of mansions from venders of hard afternoon, sectional meetings were held."

### PAYMASTER

**In the U. S. Navy Arrested For Deficiency.**

**Books of Philip W. Delano Will be Given Rigid Investigation At Once.**

Washington, May 8.—Charged with irregularities in accounts, deficiency and false statements, Philip W. Delano, of New Hampshire, assistant paymaster, U. S. N., has been placed under technical arrest which confines him to the limits of the District of Columbia, pending an investigation of his books by a board of officers appointed for that purpose. If the charges are sustained by the board, a court martial of the officer will be ordered. The officer was last attached to the gunboat Isha de Luzon, which has recently returned from the Asiatic station, by way of the Suez canal, and is now out of commission at the Pensacola naval station.

### PUMPKIN

**Of Some Importance Is Big Bill Sippe.**

**Who Has Criminal Record That Will Reach All the Way Round New Continent.**

Philadelphia, May 8.—Benjamin Sippe, better known as "Big Bill Mason" was arrested yesterday at the gate of the Eastern penitentiary where he has just completed a sentence of five years. He is wanted in Washington, D. C., on a charge of house-breaking. Sippe is 40 years old. The police say there are charges against him in Indiana, Ill., Baltimore, Boston, and cities in Ohio and Indiana.

He has a criminal record extending over a period of more than 20 years.

### PACKING HOUSES

**Are Conducting Their Business With Difficulty.**

Ultimo, May 8.—Business at the leading houses is being conducted under difficulties owing to the strike of stationary engineers who were called without warning, yesterday afternoon. Engineers, who are now occupying higher positions, have been called upon to take the places of the striking men in some instances, and by one expedient or another, all of the eight concerns that refused to sign the scale demanded by the strikers, are keeping their plants in operation pending decision upon a plan of action. The packers declare the new demands for an eight hour day, 37½ cents an hour to be a violation of an agreement entered into several weeks ago on an award of 30 cents an hour, and a ten hour day, made by a board of arbitration whose members were picked from men selected by the engineers.

### MAXIMO GOMEZ

**Enthused Over the St. Louis Exposition.**

New York, May 8.—General Maximo Gomez, who came on his way home after attending the dedication of the

World's Fair at St. Louis, sailed for Havana yesterday, accompanied by Francisco Palma, a nephew of President Palma. General Gomes said:

"I am deeply interested in the St. Louis fair and believe it will be one of the greatest expositions the world has known. I shall make it my personal business on reaching Cuba to interest my countrymen in the fair and hope it will be possible to secure the necessary authority and appropriations to have Cuba properly represented there."

### ONE KILLED

**And Three Seriously Injured in Freight Collision.**

Burlington, Vermont, May 8.—Two heavily laden freight trains on the Central Vermont railroad, collided at Mifflin, 15 miles north of Burlington yesterday. One man was killed, three others were injured and a heavy damage was done to rolling stock, and freight. The dead are:

FIREMAN A. L. RANNEY, of St. Albans.

The injured:

Fireman Henry Willets, injuries severe.

Engineer Jack Ryan, also badly hurt.

Brakeman Robert Farr, bruises and cuts caused by jumping.

### PRESS POINTS.

A Kentuckian has been killed by accidental discharge of a revolver he was putting into his cartridge, preparing to a journey. Something of the sort should have been expected. The Kentuckian who falls into such habits of habit as not to carry his gun in its accustomed place, may soon be suspected of occasionally misplacing his mask.—Sentinel.

**DR. LORENZ**  
**Demonstrates Bloodless Surgery Again.**

**Large Attendance of Crippled Children and Anxious Parents.**

New Orleans, May 8.—Five hundred doctors gathered at the charity hospital yesterday to witness another demonstration by Dr. Adolf Lorenz of his method of bloodless surgery.

There was an unusual attendance of crippled children and their parents, the latter anxious to have their little ones selected as subjects for the demonstration. Some of the scenes were affecting. The house of delegates continued its session today, taking up the matter of the proposed revision of the code of ethics. The American medical temperance association listened to a paper by President W. S. Hall of Chicago, on nature's immunization of the race against liquors. Dr. W. L. Rodman of Philadelphia, in behalf of the portrait committee of the medical association, presented for the Hall of Fame, a portrait of Dr. Hunter McGuire of Virginia, a distinguished confederate surgeon, and former president of the association. An interesting paper on leprosy was read by Dr. Isaac Dyer of Louisiana and Dr. Dyer invited a party of the doctors to visit the Louisiana leprosy hospital today. The section nominated for officers Dr. G. T. Swartz of Rhode Island, president, and Dr. John Fulton of Maryland for secretary. Dr. Joseph McFarland of Philadelphia was elected president of the section on pathology and physiology and Dr. Henry A. Christian of Boston, secretary.

Give the children Rocky Mountain Tea, this month, makes them strong, makes them eat, sleep and grow. Good for the whole family. A spring tonic that makes sick people well. 35 cents.

### GLOBE SIGHTS.

You really don't know enough about a chafing dish to boast about it, unless you are familiar with the use of paprika.

Sometimes when a man gets rich his wife's extravagance runs to wild resorts and operations instead of clothes.

The success of some people is unaccountable, considering that they never had a baccalaureate sermon preached to them.

Every bride gets pieces of china among her wedding gifts that the groom couldn't tell the use of to save his neck.

There is one class of people who are as hard to bear as boils, because they want their conversation to prove instructive to you.

Speaking of evolution: there is the princess who was at one time a bare footed girl, who carried her father's dinner to him in a pail.

Hint to the women: If men will not eat the steak, bring it on the table the second time with a fresh garnishment of parsley. The third time, a hand painted platter, assisted by the parsley, may succeed in moving it.

Answer to man correspondent: A widow wears as deep mourning for a bad husband as for a good one. There may be more stars in a man's crown if he was good, but there will not be more hem in his wife's mourning veil.

**CROP REPOTT.**

Washington, May 8.—The weather bureau's weekly crop bulletin is as follows:

The week ending May 4 was unusually cool over much the greater part of the country, the minimum temperatures on April 30 and May 1, and 2 being the lowest recorded in the last decade of April and the first decade of May for the past 30 years at nearly all weather bureaus from the central and west gulf coasts to the Upper Missouri valley, and also at a number of stations in the Central Mississippi and Ohio valleys, Lake Region and New England. Generally light rain fall, or absence of rain, has been favorable for farming operations, but the unusually low temperatures have checked the growth of all vegetation and heavy frosts and freezes have caused much damage. Drought has been relieved over southeastern Texas and over limited areas in the central gulf states, but continues over the greater part of the last mentioned districts and in northern Texas, and rain is needed in Florida. Notwithstanding the decidedly cool weather during the latter part of the week, the temperature in New England and portions of the middle Atlantic states and lake region averaged above the normal. Rain is generally needed on the Pacific coast. The early planted corn was extensively killed by the freeze during the latter part of the week in Missouri, Kansas, Oklahoma and Texas and the crop has suffered from cold weather throughout the southern states. Preparations have progressed favorably in the Ohio valley and middle Atlantic states, but little progress has been made in the states of the upper Mississippi region.

According to rumor, it is not the intention of the officials to run the fast train on the same schedule as the former special. It will make faster time than the present Pennsylvania Limited, which covers the distance from New York to Chicago in twenty-four hours, but the schedule will not equal twenty hours.

### WASHINGTON

**Episcopalians Vote to Retain the Cherished Old Name.**

Washington, May 8.—The committee of the Washington diocese of the Protestant Episcopal church, appointed yesterday to consider the advisability of changing the name of the church in the United States, reported today adversely to the proposition. The report was made by Dr. Randolph McMick, chairman and took positive ground in support of the retention of the present name. A minority report favored a course that would leave open the question was made by Dr. Hardinge. Bishop Satterlee, who presided, stated that while he did not consider the present name entirely adequate, he was of the opinion that a change at this time would be inadvisable. The report was debated at length by the convention.

### TOO GREAT A RISK.

In almost every neighborhood someone has died from an attack of colic or cholera morbus, often before medicine could be procured or a physician summoned. A reliable remedy for these diseases should be kept at hand. The risk is too great for anyone to take. Chamberlain's Colic, Cholera and Diarrhoea Remedy has undoubtedly saved the lives of more people and relieved more pain and suffering than any other medicine in use. It can always be depended upon. For sale by Mrs. M. Melville, old postoffice corner.

### NOTE RETURNED.
